

Ice Cream

Walk Off the Earth

Your love is better than ice cream
Better than anything else that I've try
Ooh love is better than morphine
Everyone here knows how to fly

It's long way down
It's long way down
It's long way down
It's long way
Down to the place where we started from

Your love, it's better than ice cream
Better than anything else that I've try
Your love, it's better than morphine
Everyone knows how to fly

It's long way down
It's long way down
It's long way down
It's long way
Down to the place where we started from
