

## Lay Low

## Walk Off the Earth

I'm taking time to live my life  
Nothing's been changing  
everyone's saying  
"My tune make you feel alright,  
cause I've got somethin everyone's chasing."

I know you've heard it all before  
small town man tryin to make a big stand.  
My friends say

I gotta make this right but I'm makin it hard cause.  
Just tryin to lay low (low, a little bit harder, little bit),  
lay low (low, a little bit harder).  
Just tryin to lay low (low, a little bit harder, little bit),  
lay low (low, a little bit harder).

It's late night the tune feels right,  
familiar faces,  
nothin needs changing.  
The melody and the beat's so tight,  
a dozen face and we drop it the bass in.

I know you've heard it all before,  
a small town man tryin to make a big stand.  
Friends say I gotta make this right  
but I'm makin it hard cause.

Just tryin to lay low (low, a little bit harder, little bit),  
lay low (low, a little bit harder).  
Just tryin to lay low (low, a little bit harder, little bit),  
lay low (low, a little bit harder).

The sun will shine,  
and rain will fall.  
The fire burns inside us all.

Just tryin to lay low.

I know you've heard it all before,  
a small town man tryin to make a big stand.  
My friends say, "you gotta make this right,"  
so I'm bringin it harder (just tryin to lay low).
