## Walk Off the Earth

Yo, there ain't enough time in our life so let's get it on  
Get your feet on the street now sing along  
It's summer time, folks are gone  
Hit the wine, let's party on  
Cooler's out back  
Eighties got rack  
Three chicks per mack  
Yo, this party ain't whack  
Find us green, no crack  
Crack the cooler, unpack  
Sit back, relax, check the latest Walk track

Everybody wants her  
Everybody needs her  
She'll change your life as she looks your way  
Everybody wants her  
Everybody needs her  
'Cause when she hits you, you feel no pain  
Girls got me down  
Work's got me down  
Nothing gets me up until that girl I work goes down  
Girls got me down  
Work's got me down  
Nothing gets me up until that girl at work go-go-go-go-goes down

Yo, Check it out now, yo  
Check it out now  
Every single tune that we drop is a hit now  
Addicted to our licks  
We don't miss  
Predicting you feel our tune with one listen  
And then you'll play them again, and again, and again, and again  
So get your head out the cloud  
We'll turn the bass loud  
Walk Off the Earth watch the girls go wild

Rolling, yeah you stalling  
My heart was broken  
Come back again, come back again  
Rolling, yeah you stalling  
My heart was broken  
Come back again, come back again  
I'm losing by your hand (I'm losing by your hand)  
Miss Geppetto, let me stand (Miss Geppetto, let me stand)  
I'm losing by your hand  
Yeah, yeah, yeah  
Miss Geppetto, let me stand (Miss Geppetto, let me stand)  
This shit is smoother than a stone on the beach  
This shit is smoother than a stone on the beach  
This shit is smoother than a stone on the beach  
This shit is smoother than, smoother than, smoother than, smoother than  
I saw you once, I saw you twice, I saw you three times a day  
But I can't take it  
Can't take you being away  
I saw you once, I saw you twice, I saw you three times a day  
But I can't take it  
Can't take you being away from me

Wanna stay but you gotta go now  
Wanna stay but you gotta go now-ow  
Wanna stay but you gotta go now  
But you can't go home  
Wanna stay but you gotta go now  
Wanna stay but you gotta go now-ow  
Wanna stay but you gotta go now  
But you can't go home  
I've been broke  
'Cause when she hits you, you feel no pain  
I've been broke  
Nothing gets me up until that girl at work goes down  
I've been broke  
Was broken, come back again, come back again  
I've been broke  
Miss Geppetto, let me stand  
I've been broke  
But I can't take it, can't take you being away  
I've been broke  
Wanna stay but you gotta go now, but you can't go home  
I've been broke  
You say the red man is coming, yeah the red man is coming  
I've been broke  
'Cause when she hits you, you feel no pain
