

## Spend Your \$\$\$

## Walk the Moon

The TV says Mother is hurting  
That the clock reads quarter to twelve  
So I shop my face off at Urban  
just trying to look a little more like myself

What do you spend your money on?  
I hope it's something of value  
What do you spend your money on?

The first time to your apartment  
I was peeking in between my fingers  
Oh the things I hoped we had in common  
Wishful thinker

What do you spend your money on?  
I hope it's something of value  
Are you the driver or is someone driving you?  
What do you spend your, spend your  
What do you spend your money on?

You take me up to the party  
and we cross right over the barrier  
I'm not sure what's more disarming  
than fake breasts and miniature terriers

What do you spend your money on?
