Walls of Jericho

Brother I am begging you,
Please don't let this life destroy you,
You spent so much time hiding inside,
Cutting out the hurt with a knife,

I can only watch you fall,
And throw my heart against your walls,
Why do you enjoy your pain,
Sister we are one in the same,

Don't give up Just hold on,
Give it time, it wont be long,
I'm here to open up your eyes
Don't leave this part of us behind
Don't give up, just hold on

I see the hard times on your face
If you'd hear my cries
You'd change your ways
Blood is like a trip through the past,
I know you're on your own and fading fast
I'm with you

Don't give up Just hold on,
Give it time, it wont be long,
I'm here to open up your eyes
Don't leave this part of us behind
Don't give up, just hold on

It kills me that I couldn't see,
That someone I loved needed me,
You are a part of who I am,
I will fight this fight with you till the end.

Don't give up, just hold on,
Give it time, it wont be long,
I'm here to open up your eyes
Don't leave this part of us behind

Don't give up, just hold on
Don't give up, just hold on
Give it time, it wont be long,
I'm here to open up your eyes
Don't leave this part of us behind

Don't give up, just hold on
Don't give up, just hold on
Don't give up, just hold on
