

Baby Please

Walter Meego

The light in your eyes
is the light in my life
It's dark here tonight
without you in my life

So baby, baby
Baby won't you come back to me
to me
to me
Baby please

The touch of your hand
can wake me up or make me understand
You make the spell of the night time
and bring the sunshine to my life again

So baby, baby
Baby won't you come back to me
to me
to me
Baby please

The light in your eyes
is the light in my life
It's dark here tonight
without you in my life

So baby, baby
Baby won't you come back to me
to me
to me
Baby please (2x)
