

Wanna Be A Star

Walter Meego

If you can change your mind
You could change your heart
Catch yourself off your guard
It's not easy
It's not hard
To learn to become
Who you are

If you wanna be a star
Burning big and bright
In the sky
Glow in the dark
You know you're gonna be a star
Burning big and bright
In the sky
Glow in the dark

Time is running out
Your candle's burning down
You better act now

Time is running out
Your candle's burning down
You better act now

If you wanna be a star
Burning big and bright
In the sky
Glow in the dark
You know you're gonna be a star
Burning big and bright
In the sky
Glow in the dark
