

What I Want

Walter Meego

Many times how I have thought of
you and I together in love
With eyes closed and pen in hand
I drew the curtains on a wonderland

I wonder if you too can imagine
you and I together with him
and in the bedroom you can set the stage
we read our lines and we turn the page

I know what I want and I know how to get it
know what I want and I know how to get it
even if I can't make you mine

I wonder if you too have thought of
you and I together in love
When you close your eyes can you imagine
you and I together with him

When we go out at night and time goes back yes
My heart is racing and it's moving so fast
My body's burning up with desire
You're in my head and now my mind's on fire

I know what I want and I know how to get it
know what I want and I know how to get it
even if I can't make you mine
