What I Want

Walter Meego

Many times how I have thought of you and I together in love With eyes closed and pen in hand I drove the curtains on a wonderland

I wonder if you too can imagine you and I together with him and in the bedroom you can set the stage we read our lines and we turn the page

I know what I want and I know how to get it know what I want and I know how to get it even if I can't make you mine

I wonder if you too have thought of you and I together in love When you close your eyes can you imagine you and I together with him

When we go out at night and time goes back yes My heart is racing and it's moving so fast My body's burning up with desire You're in my head and now my mind's on fire

I know what I want and I know how to get it know what I want and I know how to get it even if I can't make you mine
