

Lotus Blossom

War

I've been searching most everywhere
To find someone with whom I could compare
And now I've found her she's right there
You know you know
Desert honey Lotus Blossom
Hungry man has always got some time
To take away from you
Gentle hearts we've known too few
All in love coolin out
Peace of mind must come about
So rest your racing aching brain
Stone blind mirror looks insane
Almost coming almost gone
Always caught inside a song
So stop and sip my cactus syrup
'Fore you climb into the stirrup
And ride, in stride, survive in time
Empty arms forever running
Sunny lady left too long
Desert honey almost coming
Lotus Blossom almost gone
You know ooohhhh
You know ooohhhh
