

# Slowly We Walk Together

War

Slowly we walk together  
Joining hands in little hands  
We turned and kissed one another  
We have a working plan

We have all the seasons to live by  
Is there any reason to cry  
When you've had a love for a long time  
It's so hard to say good bye

Just try to think about giving  
There's a fortune in your little hand  
Then you'll receive more pleasures  
To add to your working plan

We have a working plan

Go, tell it to your lover  
Don't be the one who turned and ran.  
You can move ahead a little farther  
Then you'll have a working plan

We have a working plan

Slowly we walk together  
Joining hands in little hands  
We turned and kissed one another  
We have a working plan

We have a working plan
