

That's What Love Will Do

War

I walk alone, alone alone alone
Feeling sad and so blue
Wondering if you love me, or do I love you
Oh yeah, Yeah

That's what love will do
That's what love will do

On a rainy day, a day in May
You can hear me say
I lost a good, a good good love
Now she's gone away
Oh yeah, Yeah

That's what love will do
That's what love will do

It's just a game a foolish game
That we all have to play
We have to try and get a little stronger, Lord knows we do
With each and every day

Well that's what love will do

That's what love will do

It happens 24 hours of the day time
