

## Prey for Death

Warbringer

Heat beats down over barren wastes  
Desolate realms of ash  
Vultures circling overhead  
They feed on your dying past  
Victims of our need to consume  
Strip the world of life  
Can't sustain your decadent ways  
How...can we survive?  
End of humankind  
And you know there's nothing left  
PREY FOR DEATH  
Lead: Carroll  
Parched with thirst but you cannot drink  
The oceans melt away  
Breed so you can eat the young  
Keeps hunger at bay  
Twisting mass of starving flesh  
Hands held to the sky  
Can't sustain these decadent ways  
Knowing...it's your time  
Left alone to die  
Under the sun there's nothing left  
Prey for Death  
Rotting inside  
Waiting to die  
No one is spared from the march of time  
End of mankind  
End of all life  
Nothing is left so you pray for death  
Prey
