

## Savagery

Warbringer

Life in a civilized society  
Can't you see that it has made you weak?  
You wouldn't survive in the world alone  
A life without hardship is all that you've ever known  
Return to primitive ways  
Ruling with might  
Kill or be killed  
FIGHT OR FLIGHT!  
Live from the land  
Obey no command  
I have no master  
I have only the strength to kill and subdue my prey  
Stalking you down, day after day  
Baring my teeth, raising my spear  
The call of the wild has cut away all the fear  
Cut by stone  
Tearing at the carcass  
Stench of death  
No life left  
AAAUUUGGGH!  
Broken bones, shattered teeth  
Kill to be, savagery  
Animal, wild beast  
We descend into savagery  
Seas spread like locust  
Consuming all in their path  
The skies are getting darker  
The seas are turning black  
[Solo - Laux]  
The lands are ravaged  
In mindless persistence  
The species must devolve  
To preserve its own existence  
Cut by stone  
Tearing at the carcass  
Stench of death  
No life left  
Broken bones, shattered teeth  
KILL TO BE, SAVAGERY!  
Animal, wild beast  
WE DESCEND INTO SAVAGERY!  
We descend eternally!
