

Vengeance

Wardrum

Pain is all I own, no emotion
All you've ever known, planting poison
Sometime near this day
You'll be forced to pay
Someday, that's what I live for

Every step you take I follow
Every move you make
I will feel no sorrow when I see you beg
I've been waiting so long
Fate's not always fair
But revenge is sweeter than life ever was
With me

No need to move on and turn the page
Till the pain I own turns into rage
Sometime near this day
You'll be forced to pay
Someday, that's what I live for

Every step you take I follow
Every move you make
I will feel no sorrow when I see you beg
I've been waiting so long
Fate's not always fair
But revenge is sweeter than life ever was
With me

Sometime near this day
You'll be forced to pay
Someday, that's what I live for

Every step you take I follow
Every move you make
I will feel no sorrow when I see you beg
I've been waiting so long
Fate's not always fair
But revenge is sweeter than life ever was
With me
