## Warfare

Shoot to kill

It's in my brain - in my brain  
I'm on fire a kid insane  
It's in my head in my head  
I'm so sick I'll end up dead

Just look me in the eye  
Just look me face to face  
Just look me in the eye  
Just look me face to face  
Disgrace

I'll run around just runaround  
But you sods just get me down  
Then run away then run away  
And I wake up and it's today

Just look me in the eye  
Just look me face to face  
Just look me in the eye  
Just look me face to face  
Disgrace

This means war this means war  
So fucked up won't take no more  
I'm in a trance just in a trance  
The reapers called the final dance

Just look me in the eye  
Just look me face to face  
Just look me in the eye  
Just look me face to face  
Disgrace
