

Disgrace

Warfare

Shoot to kill

It's in my brain - in my brain
I'm on fire a kid insane
It's in my head in my head
I'm so sick I'll end up dead

Just look me in the eye
Just look me face to face
Just look me in the eye
Just look me face to face
Disgrace

I'll run around just runaround
But you sods just get me down
Then run away then run away
And I wake up and it's today

Just look me in the eye
Just look me face to face
Just look me in the eye
Just look me face to face
Disgrace

This means war this means war
So fucked up won't take no more
I'm in a trance just in a trance
The reapers called the final dance

Just look me in the eye
Just look me face to face
Just look me in the eye
Just look me face to face
Disgrace
