

## Living for the Last Days

Warfare

Youth and sin and anarchy  
Spread around the globe  
Volume sounds and shakes  
The night say goodbye to the old  
Destruction upon violence paves the only way  
A fire burning so displeasing welcome to your day

Living for the last days  
living for the last days

Blood suck the heart of metropolis  
Echo through ya mind  
Perpintrator holds the key  
Destroy his fuckin kind  
Macabre solutions they unfold  
Open up the night  
Bursting out of mother's wombs  
At last we've put this right

Living for the last days
