

New Age of Total Warfare

Warfare

Just decibels volumes our lust
And all your views have turned to dust
Fire the blanks left in your gun
Just give me booze and loads of fun

This is the new age beware
This is the new age of total warfare

Now it's so loud we cannot stop
Turn it up until we drop
This is our cult can't stop us now
A blazing hell unholy row

No rules no law no turning back
You're gunned down full scale attack
We won't conform just burn ya down
A perfect freedom is what we've found

No alibis just left to die
Aim those frets between their eyes
Hard driving bass detonating lead
Crossover sound power and speed
