

Body's asking for it  
Calling for it  
Anyone around me  
Calling for love I guess  
A compliment  
To me

Did we call it in before  
In the times when we were new  
Was it loves desing before us  
To have us in mind  
I wonder these days  
Waiting

You sure look good, sure look good  
You sure look good, now don't you baby  
And it does feel good, does feel good  
And it does feel good, now don't it baby

(Bitch I got you  
Bitch I got you)

Body's calling on it  
Asking for it  
Anyone around me  
Trying for love again  
A compliment  
To me

Did we call it in before  
In the times when we were new  
Was it loves desing before us  
To have us in mind  
I wonder these days  
Waiting

You sure look good, sure look good  
You sure look good, now don't you baby  
And it does feel good, does feel good  
And it does feel good, now don't it baby

(Bitch I got you  
Bitch I got you)  
You sure look good, now don't you baby

And it does feel good  
You sure look good, now don't you baby  
And the sun comes up  
And the lights go down  
You sure feel good, sure feel good  
You sure feel good, now don't you baby
