

# No Way Out

Warpaint

Never again will I play that game with you  
Got caught up again in a moment, more than I wanted to  
Once said I should've kept things all to myself  
Now I say it loud as the words rain down

I can't find my way  
I can't find my way

I thought I was done with you  
I thought I was strong, I guess I was wrong  
Once said I should've kept things all to myself  
Now I say it loud as the words rain down

I can't find my way [x3]  
I can't find my  
I can't find my way

I don't like this, You can't take the fallout  
I like things when there's nothing left to follow  
Once said that I should've kept things before they fell, they fell, t  
hey fell

I don't like this, You can't take the fallout  
I like things when there's nothing left to follow  
So now I say it loud as the words rain down  
Now I say it loud as the words rain down

I can't find my way  
I can't find my  
I can't find my way

I can't find my way [x3]  
I can't find my  
I can't find my

Never again will I play that game with you  
Thought I was done  
Got caught up again in a moment

I took more than I needed to, Took more than I wanted to [x3]

I can't find my way  
I can't find my  
I can't find my way

She said, she said, she said, she said, she said do what you want  
She said, she said, she said, she said, I'm sorry [x2]

She said [x20] I'm sorry, So sorry!
