Warpaint

"Cool, let's try!"

Want to calm you down
Like I could once in your life
Want to settle all your worries
How to make you feel alright?
And you think it scares and helpless
Like there's just no getting through
But I won't give up on you
But I won't give up on you
But I won't give up on you
But I won't give up on you
Though I think you want me to
And when you wake up from fade
That the only way to be brave
Is to give up the strong things
Don't you know who you let it out?

Let you talk, trust your [?]
Shake it off
Everybody's got the same
Got the same shine in skin
Letting go's not giving in
Letting go's not giving in
Letting go's not giving in

So break down
You know, you need, you want to
Break out
Follow your lead, you got you, no doubt
You know, you need, you want to
Break out
Love is, love is, love is a place for it
Love is, love is, love is a place for it

Want to calm you down
Like I could once in your life
Want to settle all your worries
Gonna make you feel alright
Settle all your worries
Gonna make you feel alright
Settle all your worries

I get high when I'm low
I get wrong when I know

So break down
You know, you need, you want to
Break out
Follow your lead, you got you, no doubt
You know, you need, you want to
Break out
Love is, love is, love is a place for it
Love is, love is, love is a place for it
Love is, love is, love is a place for it
Love is, love is, love is a place for it
