

She's tall like the Eiffel Tower
Fast, New York to Paris in half an hour
She's lean, a real love machine
Probably take on the whole football team
Strong, as the day is long
Think you got her figured out
You find out you were wrong
Long, as a limousine
She'll take your body places
that you've never, never seen

Hi ho away we go
Let's build a fire from coast to coast
Baby's on top, She's on a roll
Gonna burn me down to my soul
I'm as high as a circus wire
Getting hot like a bonfire

She's free, she's no one's pet
Beautiful, intelligent
You absolutely must respect
The way, she's right as rain
There's a part of her
You're never gonna change
She's unpredictable
Soften you with words and then
She'll eat you like a cannibal
Right, she can go all night
Maybe give you what you want
Maybe put up a fight

Hi ho away we go
Let's build a fire from coast to coast
Baby's on top, She's on a roll
Gonna burn me down to my soul
I'm as high as a circus wire
Getting hot like a bonfire
