

Found Forever

Warrant

I see it out on the horizon
The clouds are clearing from my vision today.
You were a light among the shadows
I felt your heat from a mile away.
Over and over I hear a voice in my head
Telling me and it's getting better and

I want you near, want you now
More than forever
And you finish me, wait and see
We have found forever.

I know we both might have stumbled
The past is gone in just a blink of your eyes.
We can't help move a little closer
Our perfect fit is such a perfect surprise.
Over and over you whisper into my ear
Don't you ever let me go. 'Cause

I want you near, want you now
More than forever
And you finish me, wait and see
We have found forever.

I know that sure as the sun's gonna rise
How I love the way that I look in your eyes.

I see it out on the horizon
The clouds are clearing from my vision and

I want you near, want you now
More than forever
And you finish me wait and see
We have found forever.

I want you near, want you now
More than forever
You finish me wait and see
We have found forever.

Want you now...
