

Sub Human

Warrant

One good wash and your outta my hair
You never shoulda' been there in the first place
I fell into a hole in the middle of your world
I got mud all over my face

I'm sorry everything I do is wrong to you and,
But you do everything that you can
To make me feel sub human

I try to speak my mind to you
I can't get a thing across to you

And I'm sorry everything I do is wrong to you and,
But you do everything that you can
To make me feel sub human

I eat the words you feed to me
I through them up in agony

And I'm sorry everything I do is wrong to you and,
But you do everything that you can
To make me feel sub human

(solo)

And I'm sorry everything I do is wrong to you and,
But you do everything that you can
To make me feel sub human
