

What Love Can Do

Warrant

Everything is greater than our rose
Didn't think it will rain this hard
Ever since you took your love away from me
I thought I am a super man and
You were Lois Lane but in to real life
That sounds so insane and I knew just what love can do
Makes us crazy
Makes us fly
Makes me call your phone
A hundred times
That's what love can do
Makes us sick
Makes us lie
Makes us cry a thousand rivers at night
That's what love can do
Make a man out of you

Everything is complicated
I used to dream x-rated
Now I only dream of you in my arms
Then I knew just what love can do
Makes us crazy
Makes us fly
Makes me call your phone
A hundred times
That's what love can do
Makes us sick
Makes us lie
Makes us cry a thousand rivers at night
That's what love can do
Make a man out of you

Ain't no way our love left alive
Ain't no man that I know that survived
Ain't no way our love left alive
Ain't no man that I know that survived

Then I knew just what love can do
Makes us crazy
Makes us fly
Makes you call your phone
A hundred times
That's what love can do
Makes us sick
Makes me sigh
Makes us cry a thousand rivers at night
That's what love can do
