

Crush

Warren G

R: Oh baby, don't u rush, don't u crush
We gotta just take our time
Hush, girl just hush,
Don't say a word, I know what you like
Us, it's just us,
Turnin off my phone tonite girl
Crush, on you, crushin you tonite.

Every now and then I feel a little about it,
The VIP get a little crowded,
You should see the piece with the diamonds inside it
It's so vibrant, platinum all around it
When I take flight, how can I stay grounded
Got the 2 6 pep boys been around it
Shawty wanna shake the spot like right now
5 cut a cranberry saturn right now
Mama got back, pretty little thang
Kicked in the door with bullied out the game
PYT, pretty young thang
I told her cross over stop messin with the lames
Switchin 4 lanes like money ain't a thang
I got on 4 chains like money ain't a thang
Yeah girl this is us tonight
Take her back to the crib we gon crush tonight
Right?

R:

So now we in the coup, starin through the roof
Your face like a model your body through the roof
Champagne by the bottle, now we in the loop
I'm g'd up, with doc I be swimmin thru the loot
Anything for my boo, from fashion to asprin
I told pops u the one u could ask me
Flashin the necklace, the ring like a fitty
We can leave the country have sex in the city
Any soakin the till takin shots like biggie
I realised I got my own style like diddy
Bb and carrots baby girl be shinin
Old man ain't the only one throwin up diamonds
Throwin up dollars yeah I gotta have it
Laughin at the girls on the floor tryin to grab it
I ain't spike lee but ma I gotta have it
Don't blush baby girl just crush

R:

These 4 walls can't contain my love
Girl can we take this to the balcony
This lil bed just ain't large enough
For the two of us
Girl I hope your feelin me
Oh girl

And girl it's just us so just hush
You might get outta line the nine is gon bust
You see the crushed, ice in your face

Hit the cush, now u in space
Don't fuss we seein eye to eye
