Here's to that someone who can't take the puressure
Mercy for that poor fu who made the news
Who feel pissed on that insist on killing all men
Can't take the sorrow of the horrors of his abuse

It ain't worth the sorrows to cause the deathall men
He's a disgrace to the species in to his face with some feacies
Big nose mothafucka got it comin'
How many licks does it take to get to the center of a sucka

How many days you have to be before you get absent
Warren g with the p you beta step aside I'll stick my foot so far up in your
ass
The water his knee will rise above your head and drown before you get your a
