

# I'll Slow You Down

Warren Zevon

You know I hate it when you put your hand inside my head (Warren sings "stick")

And switch all my priorities around

Why don't you go pick on someone your own size instead?

Go on without me, I'll just slow you down

Go on without me, I'll just slow you down

You always say you know me somehow I don't think you do

Maybe you should buy another vowel

You're jumping to conclusions so I can't keep up with you

Go on without me, I'll just slow you down

I'll just hold you up

When I fall behind

I'll just throw your schedule off

So you get going if you're so inclined

You know I hate it when you put your hand inside my head

And switch all my priorities around

You think you're pretty tricky but you're simply overbred

Go on without me, I'll just slow you down

Go on

Go on

Go on

Go on
