

# I See The Lights

Warren Zevon

I see the traffic in the streets  
I hear the songs subways sang beneath our feet  
And is it rain or tears that I feel  
Upon my face, the cities seems unreal

I see the lights  
I see the lights  
But there's no warmth  
Or shelter in the night

People pass me on the way  
And they see my eyes are filled with yesterday  
When you were here, I felt your heart beat near  
Now the dark sides never clear

I see the lights  
I see the lights  
But there's no warmth  
Or shelter in the night

I've been this way before  
A thousand times or more  
And though the places are the same  
The faces are all yours

Oh

I see the lights  
I see the lights  
But there's no warmth  
Or shelter in the night

I see the traffic in the streets  
I hear the songs subways sang beneath our feet  
And is it rain or tears that I feel  
Upon my face, the cities seems unreal

I see the lights  
I see the lights  
But there's no warmth  
Or shelter in the night

I see the lights  
I see the lights  
But there's no warmth  
Or shelter in the night
