Let Nothing Come Between You

Warren Zevon

When my Mama met my girl, she took me aside She's a soft-spoken woman but she speaks her mind She said "De de de de de de de de de " Let nothing come between you De de de de de de de de de Don't let nothing come between you" I went to see my friend to ask his advice He just smiled and, "She's good around the eyes." But I'd already made up my mind Let nothing come between us

There are frustrated people in town Who might envy us and try to bring us down We know they don't really mean any harm That doesn't mean we've gotta let 'em hang around

Got the license--got the ring Got back the blood tests and everything Putting on my boutonniere--It's her favorite flower Then I'm walking down the altar and I'm gonna take the vow De de de de de de de de Don't let nothing come between us De de de de de de de de Don't let nothing come between us

There are frustrated people in town Who might envy us and try to bring us down We know they don't really mean any harm That doesn't mean we've gotta let 'em hang around

I have advice for the young and old If I may be so bold When you find someone to have and hold Don't let nothing come between you De de de de de de de de Get together and let nothing come between us De de de de de de de de Get together and let nothing come between us
