Networking

Warren Zevon

There's a way to live that's right for us
Like Mayans in Manhattan and Los Angeles
I'm scaling up, I'm breaking down
And I'm doing lunch all over town

Networking, I'm user friendly
Networking, I install with ease
Data processed, truly Basic
I will upload you, you can download me

There's a long, hard road and a full hard drive
And a sector there where I feel alive
Every bit and every byte
Is written down once on the night

Networking, I'm user friendly
Networking, I install with ease
Data processed, truly Basic
I will upload you, you can download me

There's a prayer each night that I always pray
Let the data guide me through every day
And every pulse and every code
Deliver me from the bypass mode

Networking, I'm user friendly
Networking, I install with ease
Data processed, truly Basic
I will upload you, you can download me
