Blown Away

Warrior Soul

The cash flows out The drugsroll in The nation rage While the children sin

Officials addicted to dough The bankers grin But we all know They can't stop it 'Cause they're linin' their pockets

We're blown away in the U.S.A. We're blown away every single day

They can't stop it 'Cause they are buyin' Their rockets

We're blown away in the U.S.A. Overseas They love our green Keep us happy With your little machines We live on credit We live on dope Ther's no promises When you're livin' on hope We're blown away in the U.S.A. We're blown away every single day Kiss the sunshine
