

# Rocket Engines

## Warrior Soul

Get down little scene mistreater  
You love but ya can't believe her  
Breeding the atomic freedom  
Burnt out like a dead reign  
There's no time for heaven

You got everything ya wanted  
Now you're just a past reformance

In the bedroom wasteland

Trip out on the fascination  
Blast off to the moon to pray on  
Winter freeze all forever  
You want but she won't it deliver

It's a bad love situation  
Rocket engines love and coca cola  
It's a bad love situation  
Situation low

Get down like a plastic preacher  
Your love's an elastic feature  
Joy school for those who make it  
You're like an abandoned baby

Corporate sin god lover  
So what style you're naked  
Place in time forever  
Place the comet's thrill

Beyond in an avalon kingdom  
Light plays come and kiss the mourners  
Survive for the dead desire  
Worship and destroy the fire

It's a bad love situation  
Rocket engines love and coca cola  
It's a bad love situation  
Rocket engines love and coca cola

We don't need you  
We believed you  
We don't need you  
You don't love me baby

Flash out of the lovers crying  
Conscience in eternal blackout

Ceaseless is the dream of crashing  
Backward to the call of screaming  
Break off of the handle lovers  
Creaking to the horror subject  
Message of the shorting shocker  
Electric all matter bleeding

It's a bad love situation

Rocket engines love and coca cola  
It's a bad love situation  
Rocket engines love and coca cola
