## **Superpower Dreamland**

## **Warrior Soul**

We come through the windows Webust down the door We cut through the ceilings And pop up on the floor

The children are angry And they come pouring in We're searching for justice From our goverments

In every face in this place I see trouble In every face in this place I see trouble

Let's rumble

We tear down the paintings We tear down the sculpture You call it destriction Yeah, but that's what ya taught us

Busted dreamland The country roots This is your payback For three trillion bucks

In every face in this place I see trouble In every face in this plkace I see trouble

If any pigs outside Do not hide we will rumble In ever face in this place I see trouble

Let's rumble

Superpower dreamland [x8] It's a superpower dreamland You're livin'in a dreamland A superpower dreamland A superpower dreamland
