

## Burn Out Blues

## Washed Out

Life goes by  
Each and every day  
I need some time  
So I can find a way

To slow down  
Relax and clear my head  
Just unwind  
So I can breathe again

Feels so right  
When it starts to take  
I feel like I  
Could leave and fly away

Close my eyes  
Forget about the day  
Open wide  
And float away

You fly  
So high  
It's all behind you  
You're safe

You fly  
So high  
It's all behind you  
You're safe

You fly  
So high  
It's all behind you  
You're safe
