

## Feel It All Around

Washed Out

You feel it all around yourself  
You know it's yours and no one else  
You feel the thought of learning again  
It's all around  
You're tired of all the things you did  
You'll work it out

You feel it all around yourself  
You know it's yours and no one else  
You feel the thought of learning again  
It's all around  
You're tired of all the things you did  
You'll work it out
