

(You have whispered these things to me)

You have caused flowers to grow in my fields
And you have brought bright colours to my head
And you have caused a cool wind to blow underneath my window sill
And I rest here underneath your hand
(2x)

You made all my deserts into gardens (2x)
You made all my ashes into beauty (2x)

I don't know where I'd be if I had not met you
I was a broken man when you found me (2x)

I became alive (7x)

What a joy it is to live again (4x)
