

# Don't You Know

Watermark

I have hidden you  
I have set you apart  
And saved the best for me  
Saved the best for me, oh, woah

I love you that much that I would  
Hold the things that you think you want  
And I'll give you the things  
That you really need, yeah

Well don't you know that I know you?  
Don't you know I know where you are?  
And all of Heaven sings over you  
Because of the depths of my love

I love you with a love  
That you cannot think of, no, oh  
I'm near you even though  
You feel far away, far away

I've rescued you and carried you  
And caused your world to stop  
Just so I could hear you say  
That you love me too

Well don't you know that I know you?  
Don't you know I know where you are?  
And all of Heaven sings over you  
Because of the depths of my love, oh yeah  
Because of the depths of my love

All of Heaven sings over you  
All of Heaven sings over you  
All of Heaven  
All of Heaven sings over you

I've rescued you and carried you  
And caused your world to stop  
Just so I could hear you say  
That you love me too, oh, woah

Well don't you know that I know you?  
Don't you know I know where you are?  
And all of Heaven sings over you  
Because of the depths of my love

Don't you know that I know you?  
Don't you know I know where you are?  
And all of Heaven sings over you  
Because of the depths of my love  
Because of the depths of my love
