

Made For You

Watermark

Darling, you should know by now
But I know, I need to tell you how
I don't always have the words
But I pray that it's my heart you've heard

I love to hear your heart, telling of your love
Telling me you'll stay forever
I thank you for your touch
And for loving me that much
To know the things I need to hear

Remember I promised forever
Life brings change, but my promise is the same
And through these years we've been together
Life has made us grow, but through it all I know
No matter what may come
My heart was made for you forever, yeah

Darling I need to confess
It's hard to show my weaknesses
I want so much to show you strength
Without revealing everything

You know what I always say
"When you're weak, you're strong, to me"
It's another way of loving me
'Cause when I see your heart
I get carried through
The reasons why I fell in love with you

Remember, I promised forever
Life brings change, but my promise is the same
And through these years we've been together
Life has made us grow, but through it all I know
No matter what may come
My heart was made for you forever, yeah

You've dreamed with me and every dream came true
You've shared with me every emotion
Every tear and every loss, every road that we have crossed
I have always found a home in you

Remember, I promised forever
Life brings change, but my promise is the same
And through these years we've been together
Life has made us grow, but through it all I know
No matter what may come, no matter what may come
No matter what may come
My heart was made for you forever, yeah
