Some days I throw my hands up like this shit right here is hopeless but today I throw my hands up like this shit right here's the dopest I'll never sew my family's holes up saying hocus pocus
So I focus love on what is whole and chase my magnum opus
There's so much more life before I leave this skin behind me
Right now I'm feeling finer than Aaliyah in the 90s
Yeah, today I'm feeling firmly like my faith could never burn me
like I'm apt to move that mountain just by glaring at it sternly
Then San Francisco used to seem bigger than Jupiter

From the view of an atom, the human body's a universe how impossibly big it be this symmetry this brutality and beauty and synergy and beyond what we'll live to see, I know nothing limit me just take everything ever, and we are that times infinity
