

# California

Wave

On a lonely day  
I look out on the freeway  
I can, fantasize 'bout the car I drive  
Don't leave the light on  
I can find my way  
It's been so long now I have to say...

I'm goin'ta california  
gonna live the life  
sipping on tequila night after night  
dreaming of the moment when everything looks right  
a little bit of love goes a long way tonight

I'm on my way (I'm on my way)  
Heading for the sun  
that's where I'll stay  
I'm never going back home  
do you ever fell like  
you need a change  
hang out where no one knows your name

I'm goin'ta california  
gonna live the life  
sipping on tequila night after night  
dreaming of the moment when everything looks right  
a little bit of love goes a long way tonight

Would you like to meet me there?  
We'll be dancing on the sand (dancing on the sand)  
These days will never win  
cause the world goes on and on

On a lonely day  
I look out on the freeway  
I can, fantasize 'bout the car I drive  
Don't leave the light on  
I can find my way  
It's been so long now I have to say, It's been so long now I have to say...

I'm goin'ta california  
gonna live the life  
sipping on tequila night after night  
dreaming of the moment when everything looks right  
a little bit of love goes a long way tonight

A little bit of love (3x)  
goes a long way tonight  
oh yeah (2x)  
on my way.....
