Does anybody know  
where all the people go, oh no  
does anybody care if I found what I will wear  
and if I ever  
maybe never  
lose what I have found  
I'm so clever

Cuz there coming after you  
there coming after you  
could we ever say what we wanna say  
coz there soming after me  
there coming after me  
could we ever be what we wanna be

Did anybody see  
the way she looked at me oh no  
I saw her standing there  
does anybody care  
oh no  
and if I ever maybe never  
lose what I have found  
I'm so clever

Cuz there coming after you  
there coming after you  
could we ever say what we wanna say  
coz there soming after me  
there coming after me  
could we ever be what we wanna be

Can anybody hear me  
does anybody care  
does anybody know  
where all the people go  
oh no  
o saw her standing there  
does anybody care oh no  
and if I ever maybe never lose what I have found  
I'm so clever

Cuz there coming after you  
coming after you  
coming after you  
coming after me  
coming after me  
coming after you  
coming after you  
coming after me  
coming after

Cuz there coming after you  
there coming after you  
could we ever say what we wanna say  
coz there soming after me  
there coming after me  
could we ever be what we wanna be
