

# Outta My Mind

Wax

[Verse 1:]

I haven't been sober in a week or more  
And my card just got declined at the liquor store  
And I've spent my rent getting bent  
Yet I'm ready for more  
Sometimes I ask myself why I do this shit  
I spend all my free time doing stupid shit  
Cause I could probably be a star  
If I tried a little harder at it  
Yo I could probably be a number one hit  
But instead I be doing just a bunch of dumb shit  
When the drum hit man I be coming up with  
Some shit that be better than the other ones spit  
But it's so much time and the time ain't worth it  
I get rid of stress cause life ain't perfect  
Reality is overrated and I have more fun unmotivated  
Man

[Hook: x2]

I  
I'd rather be completely outta my mind  
Party my life away  
Leave all my worries behind

[Verse 2:]

My girl told me that I shouldn't drink so much  
She don't like the way I'm always smoking weed and such  
And now she's moved on  
She's gone  
And I'm missing her touch  
Sometimes I wonder If there's something wrong with me  
My floor's always covered up in dirty laundry  
If she was here right now  
She'd be proud that she let me be  
But she don't understand that life is short  
And she don't understand that I'm Michael Jordan  
And she don't understand that I'm about to be scoring  
Points in the game  
Put my voice on my name  
She ignoring still  
I say good riddance  
Like bread fed to the pigeons  
Now it's just freedom  
Keep your problems  
I don't need them girl

[Hook]

[Bridge:]

I'm outta my mind  
I forgot everything  
I'm out of this world and I've been questioning  
Yeah  
I never have to fight another battle with her  
I just prefer  
To be outta my mind

[Hook]
