

## Just Like A Man

## Way Out West

A little back-bite is filling me with fear  
A little more love wouldn't bring me out here  
A little back-bite is filling me with fear  
A little more love wouldn't bring me out here

And over the year  
What a love its been  
I'll take to the street  
Standing up for me

And over the year  
What a love its been  
I'll take to the stream  
Standing up for me

Better lie down  
Better lie down  
Better lie down  
Better lie down

Slow slow baby  
Don't speak so loud  
Just come over here  
I need to be clear

There is no doubt  
I have no doubt

Slow slow baby  
Don't be so proud  
My time here is done  
There's just room for one

I have no doubts  
I have no doubt

See what you're doin' to me  
Just like a man  
See what you're doin' to me  
Just like a man

Woman, you're in trouble  
Just like a man  
Feeling is unspoken  
Just like a man

See what you're doin' to me  
See what you're doin' to me

See what you're doin' to me  
Just like a man  
See what you're doin' to me  
Just like a man

Woman you're in trouble  
Just like a man  
Feeling is unspoken

Just like a man

See what you're doin' to me  
See what you're doin' to me

See what you're doin' to me  
See what you're doin' to me
