

Die Laughing

WAYD

i forget the fatal mistakes
that destroyed my emotions
all i see is darkness
& bitter taste of existence

i lose the way in my mind
finding no escape out
tryin'to reshape reality
i'll never make up for lost time

burning, screaming, lost in your mind
falling, turning, searching, for the light
for so many years you've been rotting deep
inside
you're only one to free yourself tonight
