

A Love Song (I Can't Sing Anymore)

Waylon Jennings

I know some things must change
Nothin' stays the same
Life don't always go along with how we feel
But no matter how it goes
There's one thing I know
Once you've loved someone you always will

When it comes to me and you
There's one thing that I won't do
I won't try to hate some one I've loved before
You'll remain a part of me
Like a song I used to sing
A love song I can't sing anymore
You're a love song I can't sing anymore

You'll remain a part of me
Like a song I used to sing
A love song I can't sing anymore
You're a love song I can't sing anymore
