

Change My Mind

Waylon Jennings

If I should get a look of leavin' in my eyes
Put your arms round me woman and change my mind
If I ever seem too restless or dissatisfied
Put your arms round me woman and change my mind.

Don't let me seperate your love from mine
Don't let me leave you I might get the urge some time
If I do you'll know what to do to keep me by your side
Put your arms round me baby and change my mind.

If the gay life of the barrooms beckons me at night
Put your arms round me baby and change my mind
And if a new love ever tempts me that I should search to find
Put your arms round me woman and change my mind.

Put your arms round me woman and change my mind...
