

Falling for You

Waylon Jennings

You bring me happiness then leave me loneliness
My world is in distress yet I keep falling for you
You look into my eyes and tell the sweetest lies
You're a heartbreak in disguise yet I keep falling for you

Oh darling when you're near my world is happy dear
But when you disappear I don't know what to do
I love in misery you're so unfair to me it's such a mystery why
I keep falling for you

Oh darling when you're near...
It's such a mystery why I keep falling for you
