Her Man

Waylon Jennings

I'm gonna change my ways of doing things around here I'm turning over a new leaf gonna get myself in gear Cause I've got a woman who's better than most And I've made a mess of her plans So startin' today all I'm gonna be is her man

I've been a wild catter and a go go getter Been an SOB right down to the letter I've had misadventures I even got pictures Of even more than I can stand So startin' today all I want a be is her man

I'm gonna give it all back cause all I've done is take I've put her on the back burner while I was out on the make But I've got a woman who's good enough to give me A second chance again So starting today all I'm gonna be is her man

I've been a wild catter and a go go getter Been an SOB right down to the letter I've had misadventures I even got pictures Of even more than I can stand So startin' today all I want a be is her man

I'm a little bit late but I'm wise enough I'm taking her by the hand Startin' today all I want a be is her man
